Subject: Northern Virginia Electric Cooperative-NOVEC  
NESHAP for Reciprocating Internal Combustion Engines (40 CFR 63,  
Subpart ZZZZ)  
Initial Notification of Applicability

Dear Director:

Pursuant to 40 CFR 63.6645(a)(2) and 40 CFR 63.9(b), NOVEC is providing the Initial Notification of Applicability for the facilities listed below which it owns and operates.

5399 Wellington Branch, Gainesville, VA 20155-1616  
10323 Lomond Drive, Manassas, VA 20109

Based upon prior use and current contractual obligations, these units are classified as emergency RICE, greater than 500 Brake HP. However, upon evaluation of projected future operation, NOVEC will retain the right to re-classify any or all of these units based upon appropriate documentation consistent with the rule.

We are providing a courtesy copy of this submittal to the appropriate Virginia Department of Environmental Quality (VDEQ) Regional Offices. Although VDEQ does not have delegated authority under this subpart for area sources, the units currently hold minor air permits issued by VDEQ under the classification of synthetic minor.

If you have any questions concerning these notifications, please contact me by either email at [jmoxley@novec.com](mailto:jmoxley@novec.com) or telephone at 703-392-1773.

Sincerely,

James C. Moxley  
Senior Vice President
